

Abdul Rasheed

Software Developer (MTO) • Java Backend • Web Development

(+92) 334-3544882 • abdulrasheedabro69@gmail.com • Saddar, Karachi, Pakistan • linkedin.com/in/AbdulRasheedAbro

PROFESSIONAL SUMMARY

Results-driven fresh graduate with a Bachelor's degree in Information Technology (Hons) and hands-on experience in Java, JavaScript, and full-stack web development. Solid understanding of OOP principles, SDLC, data structures, algorithms, and relational databases (MySQL, PostgreSQL, SQL Server). Completed a capstone AI project as Team Lead and an Android development internship. Actively seeking an entry-level MTO Software Developer role to contribute to real-world software solutions.

TECHNICAL SKILLS

Languages	Java (Core, JavaFX), JavaScript, Python, C#, PHP
Web Dev	HTML5, CSS3, JavaScript, Responsive Web Design
Frameworks	Spring Framework (Core, JDBC, ORM), Hibernate ORM
Databases	MySQL, PostgreSQL, SQL Server, JDBC
OOP / Design	Object-Oriented Programming, Design Patterns, Data Structures & Algorithms (DSA)
SDLC	Software Development Life Cycle, Agile Fundamentals, Exception Handling, MultiThreading
Tools / IDEs	IntelliJ IDEA, Eclipse, NetBeans, Git
Languages	Urdu (Fluent), Sindhi (Fluent), English (Intermediate)

WORK EXPERIENCE

Android Developer Intern

Jan 2026 – Feb 2026

Internee.pk

Remote

- Designed and developed a Mobile Payment & Subscription System, implementing secure transaction flows and subscription lifecycle management
- Built a Real-Time Communication Platform featuring live messaging and notification functionality
- Collaborated in a team environment following agile development practices and SDLC principles across a 2-month engagement
- Gained practical experience in mobile application architecture, API integration, and debugging on Android

PROJECTS

LinkedIn AI Auto Apply Agent

Final Year Project (FYP) — Team Lead

- Led a team to architect and build an AI-powered automation agent that intelligently applies to LinkedIn job postings based on user profiles and job criteria
- Oversaw full SDLC: requirements gathering, system design, development, testing, and deployment
- Strengthened leadership, task delegation, and agile collaboration skills across the team

University Admission System

Java, MySQL

- Developed a desktop application to manage student admissions, with form validation, database persistence, and role-based access control

Banking Management System

Java, JDBC, MySQL

- Built a banking simulation system supporting account creation, fund transfers, transaction history, and exception handling for invalid operations

EShop Management System

Java, JavaFX, MySQL

- Implemented an e-commerce desktop application with inventory management, shopping cart, and order processing modules

Library Management System

Java, Spring ORM, Hibernate, MySQL

- Created a full-featured library system with book cataloguing, member management, fine calculation, and ORM-based data access layer

Mobile Payment & Subscription System

Android, Java

- Developed during internship; handled payment gateway integration and subscription billing with real-time status updates

EDUCATION

Bachelor of Science in Information Technology (Hons)

2022 – 2025

University of Sindh, Jamshoro

Jamshoro, Pakistan

- Relevant coursework: OOP, Data Structures & Algorithms, Database Management Systems, Software Engineering, Web Development, Computer Networks

Intermediate — Pre-Engineering

2020 – 2021

Govt. Degree College Qasimabad

Karachi, Pakistan

CERTIFICATIONS

Java Programming Language

Apr 2024 – May 2024

NAV TTC — National Vocational & Technical Training Commission

Pakistan

- Completed intensive 2-month Java training covering: Core Java, OOP, Data Structures & Algorithms, Multi-Threading, JDBC
- Capstone projects: Library Management System & Student Management System
